The Federation Argentina of BMX – FAB and the Government of Santiago del Estero has the pleasure to invite you to the UCI BMX Supercross World Cup 2016 in one of the most historical and older cities of Argentina.

For the fourth time in a row we are organizing this amazing event. We want to have a memorable event again.

Thanks to all the riders, teams, coaches, team managers around the world who have always attended all these years making the world's largest international competition in South America.

This time the World Cup Santiago del Estero becomes a fundamental step to the claims of many teams and riders from around the world to achieve the desired classification for the Rio 2016 Olympic Games.

As always we are going to offer a fluid, wide, fun, enjoyable and challenging track without change from the last year. Certainly we will have a warm climate and as always the most loving and noisy South American fans will be in great quantity in the stands, waiting for all riders from our lovely sport.

When we look back, we can not believe what we have done during these years. This small organizer team, with a few members of BMX Argentina Federation a few years ago could only dream of having an international event such as this. Today after three memorable world events we can proudly say we definitely put our country in the history of the world sport. This obviously has been achieved thanks to the unconditional huge support of the government of Santiago del Estero, that year by year continues supported our sport discipline. It is important to understand why we still travel to Santiago del Estero, because we have found a really amazing government who spend a lot of money helping to developing our discipline.

Really is not so easy to find a great support like this, I mean not only at the local level if not in the global scale. We have to feel we are so lucky and celebrate to get this kind of people who have an enough economic resources still making an amazing support for our lovely BMX. For the goodness of our sport we hope that more governments or private companies around the world can get a simmilar enthusiasm in order to put our discipline in a higher level with more and best Supercross events.

It is also necessary to thank the support received from ENARD, National Board of High Performance Sports of Argentina, which also year after year with his economic contribution makes it possible to organize this kind of event.

Of course we must not forget the awesome argentine and south american fans that always accompanies us with their support. Definitely, the public crowd in Argentina is the best of the Supercross annual tournament, you know, they treats the BMX riders like the rock stars.

This year we will surely have larger audience, because immediately after the World Cup we will have two more competitions of BMX for all categories.

In this edition the UCI BMX Supercross to be held on Thursday 24th, Friday 25 th and Saturday 26 th. On Sunday 27 th we will have competition for challenger class a UCI C1 race, and on Monday 28 th will get the "Pan American Championships" competition that is the UCI CC level race for all categories of the BMX in America, the most important race for all the BMX classes at the latinamerican level.

Friends get ready to enjoy an amazing party, spectacular skills, awesome races, great, funny and beautiful experiences will surely remain etched in the memory of people who will be lucky to join us in Santiago del Estero from 24 to 28 March, 2016.

Our objective is to make your visit to our event as easy and as comfortable as possible. We are waiting for you! Don't hesitate to ask us about any doubt you have. To that end, we have appointed Mr. Gerardo Villegas as our participant liaison for the event; he will be the main point of contact between the teams and the organization before, during and after the event.

BMX Track

The track was built by Elite Trax Inc and Tom Ritzenthaler on 2011. This year Tom Ritz made an extraordinary work rebuilding and redesigning the jumps and turns in around 70 % of the track.

The iconic Double Start Ramps were built out of concrete. One of them is 6m high for the challenger classes and the other one, the tallest with 8m high for the Supercross class, all in accordance with de UCI rules.

The concrete surface provides to the riders a very fast surface with a better grip than the other start ramps made of wood.

Both starting ramps are equipped, with the latest "Pro Gate" start gate system.

Medical Cover

The medical coverage on the track will be covered by the team of doctors and paramedics from the Ministry of Health of Santiago del Estero province. The Medical team will be present throughout the practices and racing. The team will be distributed along the track and the medical room will be located like every world cup in Argentina under the SX ramp at the East side.

The medical room it will be full equipped with the elements and medical equipment used in emergency case, in total agree with the instruction ordered from the appointed UCI official to the World Cup. Also there will be always 3 ambulances at the venue in case of need to transfer some injured rider to the hospital

The nearest hospital from the venue is the **HOSPITAL REGIONAL "Dr. Ramón Carrillo"** located at short distance to the venue, around 10 minutes drive
