During your time with us we encourage you to make yourself at home and enjoy the many cafes, restaurants, accommodation options, shopping, entertainment and visitor experiences that we have on offer.

Whether it's taking a dip at Aquamoves, enjoying our unique chocolate apples, checking out the Shepparton Motor Museum or winding down with a ride on many of our cycling tracks, there is much to enjoy during your stay with us.

On behalf of Greater Shepparton City Council, I would like to wish you the best of luck for the competition, and we hope to see many of those competing and representing their countries on the world stage at the Tokyo Olympic Games. Have a fantastic event.

8. ABOUT THE SHEPPARTON BMX TRACK

The Shepparton BMX track was first built in the 1980s and the Shepparton BMX Club has a proud history producing a number of world champions across various amateur classes with the highlight being Leigh Egan who in 1984 at the IBMXF World Tittles won the 17 Boys and Open Classes effectively becoming Australia's first Elite Men's World Champion.

In 2008 Greater Shepparton City Council in conjunction with the Shepparton BMX Club secured the 2010 BMX Australia National Championships which is one of the biggest BMX participation events in the southern hemisphere with over 1,200 participants. With this event secured to the region, the Council and Club worked together to build a new world class track to meet the standards adopted by BMX Australia based on guidelines for World Championships published by the Union Cyclist Internationale (UCI) in 2008. The aim was to provide a high quality and safe facility for all users of all competency levels.

In 2009 world renowned BMX track builder Tom Ritzenthaler who has built Olympic and World Championships tracks was engaged to design and supervise the construction of the Shepparton track. At the time it was the only permanent track in Australia to meet the UCI guidelines.

During the construction stage some other important elements of the track project that were also completed included purchase of a pro gate starting gate system, new five metre

start hill, bitumen berms, raised spectator viewing areas, landscaped surrounds, extensive drainage, power upgrades, electronic timing capacity, storage capacity, perimeter fencing, scoring hut and improved pre staging capabilities via the Shepparton velodrome entrance.

At the time the track was the only facility in Australia to meet UCI guidelines. In 2018, further updates occurred, including the first eight metre start hill in the state of Victoria which was officially used for the first time at the BMX Australia National Championships in 2019 and completing the project was the installation of new lighting for racing and concrete berms.

Over the last decade other significant major events hosted at the venue include the 2014 Oceania and BMX Australia National Championships as well as the 2011, 2015 and 2016 Victorian State Championships.

The Shepparton BMX track is located within Shepparton Sports City at 96 Packham St Shepparton 3630. GPS coordinates are 36°21'19.0" S 145°23'29.6" E

The track is considered by riders as one of the best and fastest in Australia.
